Contents Volume 97

Vol. 97. No. 1

Consolidating a warehouse network: A physical programming approach
E. Melachrinoudis, A. Messac and H. Min 1

A model for optimizing multi-product inventory systems with multiple constraints
C. Haksever and J. Moussourakis 18

Approximate solutions for multi-location inventory systems with transshipments
J. Hu, E. Watson and H. Schneider 31

Analysis of a supply chain partnership with revenue sharing
S.S. Chauhan and J.-M. Proth 44

The common cycle economic lot scheduling in flexible job shops: The finite horizon case
S.A. Torabi, B. Karimi and S.M.T. Fatemi Ghomi 52

A (r, r, Q) inventory model for spare parts involving equipment criticality
P.-L. Chang, Y.-C. Chou and M.-G. Huang 66

Intermodal container flows in a port system network: Analysis of possible growths via simulation models
F. Parola and A. Sciomachen 75

Operating system selection using fuzzy replacement analysis and analytic hierarchy process
E. Tolga, M.L. Demircan and C. Kahraman 89

Diary of Events 118

Vol. 97. No. 2

Optimal pricing and ordering policy under permissible delay in payments
J.-T. Teng, C.-T. Chang and S.K. Goyal 121

The cost of lead-time variability: The case of the exponential distribution
X.J. He, J.G. Kim and J.C. Hayya 130

Joint pricing and inventory policies for make-to-stock products with deterministic price-sensitive demand
S. Ray, Y. Gerchak and E.M. Jewkes 143

Strong stability in an (R, s, S) inventory model
B. Rabta and D. Aïssani 159

doi:10.1016/S0925-5273(05)00122-2

Matching industrialised timber frame housing needs and enterprise resource planning: A change process
M. Bergström and L. Stehn 172

A model for shelf space allocation and inventory control considering location and inventory level effects on demand
H. Hwang, B. Choi and M.-J. Lee 185

The impact of information sharing on a returns policy with the addition of a direct channel
D.-Q. Yao, X. Yue, X. Wang and J.J. Liu 196

Estimating the cost of a new technology intensive automotive product: A case study approach
R. Roy, S. Colmer and T. Griggs 210

The use of buffers in project management: The trade-off between stability and makespan
S. Van de Vonder, E. Demeulemeester, W. Herroelen and R. Leus 227

Short comments on technical note—The EOQ and EPQ models with shortages derived without derivatives
S.K.J. Chang, J.P.C. Chuang and H.-J. Chen 241

Diary of Events 244

Vol. 97. No. 3

An algorithm for scheduling batches of parts in a multi-cell flexible manufacturing system
S.R. Das and C. Canel 247

The impact of lot-sizing on net profits and cycle times in the n-job, m-machine job shop with both discrete and batch processing
G. Kenyon, C. Canel and B.D. Neureuther 263

ERP implementation failures in China: Case studies with implications for ERP vendors
Y. Xue, H. Liang, W.R. Boulton and C.A. Snyder 279

An analysis of the multi-product newsboy problem with a budget constraint
L.L. Abdel-Malek and R. Montanari 296

The voting analytic hierarchy process method for selecting supplier
F.-H.F. Liu and H.L. Hai 308

A framework for comparing outsourcing strategies in multi-layered supply chains
L. Abdel-Malek, T. Kullpattaranirun and S. Nanthavanij 318

The distribution-free newsboy problem with resalable returns
J. Mostard, R. de Koster and R. Teunter 329

A note on "An exact method for cost-oriented assembly line balancing"
A. Scholl and C. Becker 343

Diary of Events 353
